

# September 2020 Featured Part

## Powder Coating Specialists

Powder Coating gives consumers, businesses, one of the most economical, longest lasting color-durable quality finishes available on virtually any type of metal. Powder coated surfaces are more resistant to chipping, scratching, fading, and wearing than other finishes. The main advantage from a production point of view is that when the powder coated product comes out of the oven it is completely cured within 20min and ready to be put to work. Standard liquid paints can take days to completely cure and depend on the atmospheric conditions. This saves us money and we pass that savings to you.

### Quiz:

Which Great Rock album was released on September 26, 1969?

- a. Led Zeppelin II - Led Zeppelin
- b. Abbey Road - The Beatles
- c. The Band - The Band
- d. Fortunate Son - Creedance Clearwater Revival

### Problem:

Based on the sequence of the numbers, find the number on the outside of the last rectangle.

### Quote:

"It is during our darkest moments that we must focus to see the light." ~ Aristotle ~
